Profile

I'm a versatile and curious person by trade. I've always been naturally drawn to new and improved technology and processes. I love systems and I love creative people.

Even while studying as a web developer I could not let my creative side go. So I made it my mission to find ways to use software to improve my creative work and have software breathe new life into boring and tedious creative processes.

Experience

DIGITAL DESIGNER / WT STUDIOS / COPENHAGEN — MARCH/2019-PRESENT

As Tech Lead on Synthesia Studio productions, I specialise in software and web development, email development, motion graphics, and video production.

TEACHING ASSISTANT / KEA / COPENHAGEN — AUGUST/2016 - 2018

Supported KEA students in programming and design subjects by providing guidance and debugging assistance.

TEACHING ASSISTANT+ / SPECIALSKOLEN BRAMSNÆSVIG - JUNE/2009 - AUGUST/2014

In addition to regular TA duties, I documented student progress through filming and editing, offered IT support, and maintained the school's previous website. I also trained colleagues in video production techniques.
